GoCPS for Non-CPS Students Applying to PreK through 8th Grade

GoCPS allows families to research and apply to schools/programs, schedule exams, and receive and accept offers, all on one site, with one application and one deadline. With GoCPS, families can apply to all CPS district and charter high schools, all district elementary schools, and the three magnet preschools. The application process for the 2020-2021 school year opens September 30, 2019, and closes December 6, 2019. Families can apply online or via paper application. To open an online application account, visit go.cps.edu and click ‘Sign Up.’ If you prefer to apply via paper application, go to go.cps.edu and click ‘Elementary Schools’ and ‘Apply,’ starting September 30th, or contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu.

NWEA MAP
- Non-CPS students applying to grades 5-8 to Selective Enrollment schools must be administered the NWEA MAP by the Chicago Public Schools. If you plan to apply to Selective Enrollment schools, register your child for the NWEA MAP, if you have not already done so. NWEA MAP scores from other school districts are not accepted.
- The NWEA MAP scores will be uploaded to the GoCPS account approximately two weeks after the student takes the exam. OAE will contact families via robocall and email when the NWEA MAP scores have been uploaded.
- Students applying to grades PreK-4 do not need to take the NWEA MAP.

OPENING AN ONLINE ACCOUNT
- If the student registers for the NWEA MAP, the family will receive an Activation Code via U.S. mail approximately two weeks before the student’s first scheduled NWEA MAP test date. This code is used to open an online GoCPS account.
- Non-CPS families applying to PreK through 4th grade, or non-CPS families applying to PreK-8 to magnet, magnet cluster or open enrollment schools only, will need to enter a CPS ID number. There is a link on the online application site where you can request this number. You will receive the ID number via U.S. mail; once you receive this number, you can continue with the application process.

OPEN HOUSES
- Families can attend school Open Houses beginning in September to help them decide the schools to which they want to apply. Visit go.cps.edu and click ‘Dates and Events,’ or call the Office of Access and Enrollment at 773-553-2060.

CHOICE SCHOOLS AND SELECTIVE ENROLLMENT SCHOOLS
- Schools are divided into two groups: (1) Choice Schools and (2) Selective Enrollment Elementary Schools.
- Choice Schools are magnet schools, magnet cluster schools, and open enrollment schools. Students are randomly selected for these available seats via computerized lottery.
- Selective Enrollment Elementary Schools are Academic Centers, Classical Schools, Regional Gifted Centers, and Regional Gifted Centers for English Learners. Seats for Academic Centers are filled through a point system based on the student’s NWEA MAP scores, final grades from the previous school year, and admissions exam results. Seats for the Classical Schools and Regional Gifted Centers are based on the admissions exam results.

CHOICE SCHOOL DEFINITIONS
- Magnet schools specialize in one subject area, such as Humanities or world language, and in most cases, they do not have neighborhood attendance boundaries. Unless the school has an attendance boundary, all interested students must submit an application. In most cases, transportation is provided if the student lives between 1.5 miles and 6 miles from the school.
- Magnet cluster schools are neighborhood schools that specialize in one subject area, such as fine and performing arts, technology, or world language, and accept students who live within their boundary. Students who live outside of the attendance boundary must submit an application. Transportation is not provided.
- Open enrollment schools are neighborhood schools that do not specialize in a particular subject area and accept students who live within their boundary. Students who live outside of the attendance boundary must submit an application. Transportation is not provided.
SELECTIVE ENROLLMENT ELEMENTARY SCHOOLS DEFINITIONS

- **Academic Centers** serve high-achieving students in grades 7-8 and are housed in designated high schools. Once students enter an Academic Center, they can remain enrolled in the school, if they wish, until their graduation from 12th grade. **Classical Schools** provide a challenging liberal arts course of instruction for students in grades K-8 in literature, mathematics, language arts, world language, and the humanities. **Regional Gifted Centers** provide an accelerated instructional program that emphasizes thinking, reasoning, problem solving and creativity, and includes a world language or Latin, laboratory science, computer science and fine arts. **Regional Gifted Centers for English Learners** are designed to meet the needs of high-ability students whose primary language is Polish or Spanish.

RANKING PROGRAMS ON THE APPLICATION

- Families do not rank Choice Schools in any kind of order on the application. Each lottery is conducted separately. As a result, it is possible to receive an offer from more than one Choice School.
- Families DO rank Selective Enrollment Schools in the order of preference, within each program group. Students are considered in the order that the family ranks the schools on the application. Students can receive, AT MOST, only one offer from each of the program groups to which they apply: (1) Academic Centers, (2) Regional Gifted Centers/Classical Schools, and (3) Regional Gifted Centers for English Learners.

PREFERENCES AT CHOICE SCHOOLS

- Siblings: Preference is given to siblings of students who are currently enrolled and will be enrolled in the coming school year.
- Staff Preference: Two seats allotted to entry-grade level applicants of employees of the school.
- Proximity: 40% of seats remaining after the sibling and staff preference selections are allotted to students who live within a 1.5 mile radius of magnet schools.

PRESCHOOL APPLICATIONS

- You can only apply to three magnet preschools through the GoCPS process for admission in the 2020-2021 school year: Drummond, Inter-American (four-year-olds only), and Suder.
- The application process for all other preschools for the 2020-2021 school year will take place in spring 2020 through the Chicago Early Learning process; visit chicagoelearn.org for information.

SUBMIT APPLICATION

- Submit application between September 30, 2019, and December 6, 2019. Online applicants must submit their application no later than 11:59 pm on December 6th. Paper applications must be received by the Office of Access and Enrollment no later than 6 pm on December 6th.

APPLICATION RESULTS

- Application results will be released in April 2020. Results for online applicants will be posted to the online accounts. Results for paper applicants will be mailed to the primary address on the application, and posted to an online account that will be created on behalf of the family. Online applicants can accept or decline offers online. Paper applicants can submit a paper confirmation form or use the online application site to accept or decline offers.

WAITLISTS

- Students will be waitlisted for any Choice Schools where they do not receive an offer. After the deadline for accepting/declining offers, schools fill remaining seats by contacting waitlisted students, in order of their waitlist numbers.
- Depending on the type of school, a school can have more than one waitlist per grade. For example, a magnet school can have up to seven waitlists for kindergarten: sibling, staff preference, and proximity, and one for each of the four tiers. Waitlist offers are extended depending on the category a student is in. If a sibling declines an offer, that seat is offered to the first student on the sibling waitlist. If that student declines the seat, it is offered to the second student on the sibling waitlist, etc.
- If a student accepts an offer, and later receives an offer from a school/program for which he/she was waitlisted, the student can accept the offer from the school/program where he/she was waitlisted and decline the initial offer.

SECOND-ROUND APPLICATION PROCESS

- A second-round application process will take place later in the school year. This process will consist only of schools that still have seats available. Information about this process will be posted on GoCPS (go.cps.edu).

ADDITIONAL OPTIONS

- If families are still interested in exploring school options after second-round application process, they can visit go.cps.edu for a list of schools that still have seats available. Parents will be instructed to contact the schools directly for next steps.

For more information on the GoCPS process, including guides, videos, and FAQs, visit go.cps.edu.
