GoCPS for Non-CPS Students Applying to Ninth Grade

GoCPS allows families to research and apply to schools/programs, schedule admissions screenings, and receive and accept offers, all on one site, with one application and one deadline. With GoCPS, families can apply to all CPS district and charter high schools, all district elementary schools, and the three magnet preschools. The application process for the 2020-2021 school year opens September 30, 2019, and closes December 6, 2019.

NWEA MAP

- All students applying to ninth grade to programs with minimum eligibility requirements must be administered the NWEA MAP by the Chicago Public Schools. NWEA MAP scores from other school districts are not accepted.

ACTIVATION AND SCORES

- Non-CPS applicants who take the NWEA MAP in September or October receive an Activation Code via U.S. mail approximately 1-2 weeks before the student’s first scheduled NWEA MAP test date. This code is used to open an online GoCPS account. You cannot open a GoCPS account without an Activation Code.
- The NWEA MAP scores will be uploaded to the GoCPS account approximately three weeks after the student takes the second part of the two-part exam (reading and math). OAE will contact families via robocall and email when the NWEA MAP scores have been uploaded.
- Families can apply online or via paper application. To open an online account, visit go.cps.edu and click ‘Sign Up’ to begin. Starting September 30th, to receive a paper application, go to go.cps.edu and click ‘High School’ and ‘Apply,’ or contact the Office of Access and Enrollment at 773-553-2060 or gocps@cps.edu.

OPEN HOUSES

- Families can attend school Open Houses to help them decide on the programs to which they want to apply. Visit go.cps.edu and click ‘Dates and Events,’ or call the Office of Access and Enrollment at 773-553-2060.

CHOICE PROGRAMS AND SELECTIVE ENROLLMENT PROGRAMS

- Programs are divided into two categories: (1) Selective Enrollment Programs and (2) Choice Programs.
- Selective Enrollment Programs are the 11 Selective Enrollment High Schools: Brooks, Hancock, Jones, Lane, Lindblom, King, Northside, Payton, South Shore, Westinghouse, and Whitney Young. All other schools/programs are Choice Programs.
- All Selective Enrollment Programs and some Choice Programs have minimum eligibility requirements in order for students to apply. Based on their eligibility, students can apply to up to 6 Selective Enrollment Programs and up to 20 Choice Programs.

RANKING PROGRAMS ON THE APPLICATION

- The selection process is designed to offer the student the highest possible choice on their application that they are qualified for and where there are available seats. It is EXTREMELY IMPORTANT for families to list the schools/programs on their application in the ORDER OF THEIR PREFERENCE. They will list the program they want MOST as their first choice, the program they want next as their second choice, and so on. This is the order in which the student will be considered.

SUBMIT APPLICATION

- Applications can be submitted between September 30, 2019, and December 6, 2019. Online applicants must submit their application no later than 11:59 pm on December 6th. Paper applications must be received by the Office of Access and Enrollment no later than 6 pm on December 6th.

SELECTION PROCESS

- Students are considered for each program in the selection process by one of two methods: (1) a points-based system or (2) a computerized lottery.
• Points are generally based on the student’s NWEA MAP scores, final grades from 7th grade, and/or admissions screening results. Lottery numbers are randomly assigned by computer.

SINGLE OFFER MODEL

• The application process for high schools is a single-offer model. This means that AT MOST, students can receive an offer from only ONE Selective Enrollment Program and only ONE Choice Program.
• It is possible for a student to receive an offer from only one Selective Enrollment OR only one Choice Program – or no offers from either. As a result, it is important for families to apply to as many programs as the student would consider attending.
• Students are guaranteed a seat in the general education program of the CPS neighborhood high school for their home address.

ADMISSION SCREENINGS

• Some programs have additional requirements – admissions exams, auditions/portfolio reviews, essays, information sessions, interviews, or teacher recommendations – that the student has to fulfill in order to be considered. These are called “admissions screenings.”
• Online applicants can use the online site to schedule appointments for admissions screenings. Paper applicants will, in some cases, contact the school directly to schedule appointments for admissions screenings. For more information, visit go.cps.edu (click ‘High School’ and ‘Apply’ and click ‘High School Supplemental Document’) or call the Office of Access and Enrollment at 773-553-2060.

FIRST-ROUND APPLICATION RESULTS

• Application results will be released in March 2020. Results for online applicants will be posted to the online accounts. Results for paper applicants will be mailed to the primary address on the application, and posted to an online account that will be created on behalf of the family. Online applicants can accept or decline offers online. Paper applicants can submit a paper confirmation form or use the online application site to accept or decline offers.

WAITLISTS

• Students will be waitlisted for any programs that they ranked higher than the program where they received an offer (as long as they are eligible for selection). After the deadline for accepting/declining offers, schools will fill any remaining seats by contacting waitlisted students, in order of their waitlist numbers.
• If a student accepts a first-round offer, and later receives an offer from a school/program for which he/she was waitlisted, the student can accept the offer from the school/program where he/she was waitlisted and decline the initial offer.

SECOND ROUND

• A second-round application round will take place later in the school year. This round will consist only of programs that still have seats available. If a student receives a second-round offer, they will automatically forfeit a first-round offer they accepted. Therefore, it is VERY IMPORTANT that families only apply to programs in the second round if they want these programs MORE than the first-round offer they accepted.

TRANSFER PROCESS

• If families are still interested in exploring school options after the second application round, students can transfer to any program that still has seats available and for which they are eligible. Transfers can only take place between July 1st and the 20th day of school, or at the end of a school quarter. Interested families can visit GoCPS starting July 1st for information.

For more information on the GoCPS process, including guides, videos, and FAQs, visit go.cps.edu.
